## **INTRODUCTION**

From the beginning, the AISA has continued to gain recognition throughout Alabama as a strong, well-organized educational association. Today we face the very real challenge of not only maintaining our current image, but improving it whenever possible. Nowhere are we more exposed to the general public and media than during athletic competition between our member schools. Therefore, it is imperative that we exhibit good sportsmanship at all times, thereby demonstrating the true class and character of AISA.

AISA coaches and student athletes must always present themselves as models of what the AISA is striving to achieve in its athletic programs. Concurrently, our parents and fans must be constantly reminded that they also represent their school before the public and therefore must abide by the rules of good sportsmanship.

### **IT IS THE RESPONSIBILITY OF EACH SCHOOL BOARD, ADMINISTRATOR AND THEIR COACHING STAFF TO BE SURE THAT:**

1. Everyone representing the school is well-mannered, well-groomed, and properly attired. (Refer to AISA Personal Appearance Policy on Page 5.)
2. Their athletes meet all AISA eligibility requirements.
3. All AISA athletic policies and procedures have been followed.
4. Their faculty, parents, and students have been educated as to the importance of good sportsmanship and conduct.
5. Fan control is maintained, taking all measures to accomplish it, by both the host and the visiting school.
6. AISA game officials are properly protected and respectfully treated as they perform their duties.

### I. Bona Fide Student

- A. To qualify as a bona fide student of an AISA member school, an individual must be enrolled and in attendance for two full school days at grade level. To maintain the status, an individual must remain enrolled, sustain regular attendance and be assigned a typical class schedule which will allow normal progression toward graduation. When a student attends school for the third day, the student becomes a bona fide student.

The member school in interscholastic competition prior to the official opening day but does not qualify as a bona fide student on the official opening day of school, any and all games played by the member school while that student was a participant will be forfeited to its opponents. That school will also be subject to further disciplinary action by the AISA.

**Note:** Eligibility starts in the seventh grade.

### II. Age Restriction

- A. A student is eligible for Junior High competition the entire year if his 16th birthday falls **on or after August 1** and is enrolled in the 9th grade or below.

V. High school graduates are ineligible.

VI. Participation Requirements

- A. Student athletes are ineligible if they have participated in athletics above the high school level. (This does not mean that a student cannot attend football and basketball camps and other summer camps that are sometimes held on college campuses and often instructed by college coaches.) Member schools cannot conduct such camps, unless sanctioned by the AISA.
- B. Student-athletes cannot compete in a season in any sport at any school, public or independent, and then transfer to a member school and represent that school in the same sport during the school year.

VII. Required Forms

Before participating in athletics and/or cheerleading, a student must have a current physician's statement, concussion form, medical history form, certified Birth Certificate, a parent's permit to participate, and a medical treatment form on file in the administrator's and/or athletic director's office (includes pee wee).

- 1. A student transferring to a member school is eligible for competition after a two week (10 week days) waiting period, provided he/she meets all other stated AISA eligibility requirements, including the transfer student must be enrolled and attending class before the deadline in each sports season for athletic eligibility.

**NOTE:** Additions to sports eligibility list will not be allowed after the opening date of the sport season as listed on the AISA Calendar of Events.

- 2. A student in grades 7-12 who transfers from one member to another member school and whose parents' residence has not changed shall not be eligible for interscholastic competition at any level for one (1) year beginning with the date of withdrawal from the previous school or the date

of his/her attendance at the school transferred to, whichever comes first. A student may transfer from a member school to another member school at the end of sixth grade and be eligible. The student must be a bona-fide student and meet all academic eligibility requirements.

3. If a student athlete transfers to another AISA member school, the parents' residence must change to a location that is a minimum of 60 miles from the physical address of the school which he/she is transferring from, according to the shortest distance as measured by MapQuest ([www.mapquest.com](http://www.mapquest.com)) and meet the additional bona fide move requirements stated in #10 of this section. Additionally, the parent, or parents, must reside outside of the 60 miles for one (1) calendar year for the student-athlete to remain eligible.
4. A student enrolled in an AISA member school may transfer to a new school, in its first year of operation on a secondary level, and be eligible for junior high athletics only. 11. **Boarding School Transfer:** A student from a member school may transfer to a member boarding school and maintain eligibility. This procedure may be applied only one time during a student's four years of high school. A member boarding school student may transfer back to his/her home school and maintain eligibility if the transfer is made before school starts. For the purposes of athletic eligibility, the AISA will consider the following:

1. Divorce: The eligibility of a student whose parents are divorced is determined by the following:
  - a. If there has been a divorce or a legal separation in a family and sole or physical custody has been awarded by the court granting the divorce, the athletic eligibility of the student will be established based on compliance with rule IX.,10.,d. as stated in the AISA Athletic Handbook.
  - b. If it becomes necessary at a later date for the student to reside with the other parent, the move will be accepted as a bona fide move if the court that granted the divorce changes the custody to this parent. This type of move will be accepted for athletic eligibility purposes only one time and the student may only be eligible in the school where eligibility was previously established prior to the previous change of custody.
  - c. If joint custody has been awarded or if the primary physical custodian did not meet the requirements set forth in rule IX.,10.,d., as stated in the AISA Athletic Handbook, the student must attend the new school for one (1) calendar year before becoming eligible.
2. Ward of the State: If a student has been declared a “dependent of the state” and placed by the Department of Human Resources (DHR), that student must meet the Transfer Rule requirements as stated in the AISA Athletic Handbook.
3. Guardianship: Students residing with non-custodial parents, or guardians, may become eligible after one (1) calendar year at their transfer school.

The ineligible player shall be dropped from the team, and the school will be fined a minimum of \$500.00. The school will be banned from post season play in the sport concerned if violation is deemed intentional. The school may be subject to further disciplinary action, if deemed necessary by the AISA State Office and the AISA Athletic Committee. No ineligible player is allowed to dress in uniform or participate in an AISA interscholastic event.

#### XIV. Procedure Statement

**IF THERE IS A QUESTION ABOUT AN INDIVIDUAL'S ELIGIBILITY STATUS, HE OR SHE IS INELIGIBLE.**

**AISA Regulations:** During the regular season, including championship play, and the allowed 15-day spring evaluation period, AISA member schools must restrict the amount of full-speed contact football practice. These mandates are intended to limit the amount of full-speed contact and not to limit the number of practices in full pads.

**Week 1 July 28<sup>th</sup>:** Only shorts and helmets are allowed the first two days. Shoulder pads and helmets are allowed on the third practice day for a period not to exceed 90 minutes of total practice time and not to exceed 120 (2 hours) minutes on the fourth day. No full-speed contact drills. On the fifth day, one full-speed contact practice, in full gear, is allowed not to exceed 90 minutes.

**Week 2: August 4<sup>th</sup>:** Alternating days of full-speed contact practice, not to exceed a combined total of 120 minutes of full-speed contact is allowed. In addition, on intra-squad or opponent scrimmage is allowed in week 2. (Scrimmage does not count toward practice minutes)

**Week 4 through End of Season:** A total of 90 minutes of full-speed contact practice per week is allowed.

**Spring Evaluation:** Alternating days of full-speed contact practice, not to exceed a combined total of 120 minutes of full-speed contact per week is allowed during the 15 allowable days for evaluation. One interscholastic scrimmage contest is allowed during the spring evaluation and counts as one of the 15 allowable days. The following definitions describe the different levels of contact in football practice:

Actions that require contact limitations:

Live Action: Contact at game speed in which players execute full blocking and tackling at a competitive pace, taking players to the ground.

Full-Speed Contact: Any simulations in which live action occurs.

Thud: Any live action or full-speed contact with no pre-determined winner or without taking a player to the ground.

Actions that do NOT require contact limitations:

Control Drill: Drill is run at assigned speed until the moment of contact: One player is pre-determined the “winner” by the coach. Contact remains above the waist and players stay on their feet.

Air: Players should run unopposed without bags or any opposition.

Bags: Activity is executed against a bag, shield or pad to allow for a soft-contact surface, with or without the resistance of a teammate coach standing behind the bag.

Violations will be considered for disciplinary actions by the AISA Athletic Committee.

Areas will be adjusted by the AISA on a yearly basis. The difference in the number of teams in an area may not be greater than one. Anytime the total number of teams drops to ten or less, all teams will play every AISA tennis team one time, regardless of the assigned area. The top 6 teams with the best win-loss record will advance to the State Tournament.

### **III. Team Format (Regular Season and State Tournament)**

- A. Singles Competition (Boys and Girls)
  - 1. There will be five (5) different brackets (#1 players, #2 players, #3 players, #4 players, and #5 players).
- B. Doubles Competition (Boys and Girls)
  - 1. There will be two (2) different brackets (#1 doubles and #2 doubles).
- C. Players may play both singles and doubles.

- D. During the regular season, schools are encouraged to play as many positions as possible, however for team scoring; only the top 5 singles and top 2 doubles results are counted.
- E. A team's best singles player must play in the No. 1 singles position, the second best in the No. 2 position, etc. Also, the best doubles team shall play in the No. 1 doubles position, the second best in the No. 2 position, etc. It is strongly recommended that each team use a challenge format to rank its players for the season. This ranking must be established at the earliest possible date, preferably prior to the season, and must not change during the regular season matches.

Stacking is NOT Permissible.

Sports such as tennis have unwritten codes of ethics that are traditional and inherent in the playing rules. Coaches and players have a responsibility to uphold the ethics of tennis as well as the game rules. In an effort to promote fair play and wholesome team competition, coaches shall submit legitimate lineups based on the skill ability of their participating players. Under no circumstances shall a coach stack a lineup.

- F. Number one singles players are not allowed to play on the number two doubles team.

#### IV. Scheduling

- A. Schools must secure their own schedules and they must play each team in their assigned area at least one time. Teams will also be assigned three teams from the opposite area to play each year.
- B. For a player to be eligible for the State Tournament, a singles player and/or a doubles team must have competed in at least 5 AISA school matches at the position he/she will play at State. A player must enter the State Tournament at the position he/she played the majority of regular season matches. In case of a tie the player must enter at the higher position. For Doubles: The individuals that make up a doubles team must have played five doubles matches together at the same position to qualify as a team.

#### C. Incomplete Teams

- a. An incomplete team is a team that has less than 5 players for the entire season. An incomplete team must enter its best player in the No. 1 position, its second best player in the No. 2 position, etc. The same method must be used when a school enters less than two doubles teams.
- b. Positions not filled by an incomplete team may be counted as wins (6-0, 6-0) for the opposing team.
- c. Teams that have single gender programs (only boys or only girls) are considered incomplete teams. Any team that plays a single gender team, will record the defaulted matches as wins (6-0, 6-0) and the players who win by

default are not required to be present at the match.

- d. Any incomplete team that does not have at least four players cannot mathematically win a team match against full rosters. Therefore the burden to travel to matches falls onto teams with less than four players on both the boys and girls teams.

## V. Coaching

Coaching will be allowed during regular season and during State Tournament. Authorized AISA Coaches may talk or coach their players during a normal change over after odd games. The exchange will not exceed 90 second time limit. Each School can have only TWO coaches that are allowed to talk to the players during changeovers (odd games) Coaches should be designated when lineups are exchanged and cannot be changed before the team match is complete. Coaching is not permitted during games, points, tiebreakers, bathroom breaks or medical time outs. When a 10 point tiebreaker is being used in lieu of a 3<sup>rd</sup> set, coaching is permitted during the “set break”, but not during the tiebreaker. Coaches are not permitted on the courts during the match. Coaches may go on to courts on changeovers but cannot stay past the allotted 90 seconds between games.

Before play begins at the State Tournament, the tournament desk (officials) must have in writing the two coaches each school will use during the tournament and this may not change for the duration of the Tournament.

## VI. Scoring

- A. One point will be given to each win at the Top 5 singles positions and top 2 doubles positions.
- B. Defaulted matches may be counted as wins. A default is the failure to appear i.e. "no show". It will not constitute a loss for the individual not appearing. Forfeited matches may be counted as wins. A forfeit is the failure to complete a match. Forfeits constitute a loss for the individual not completing the match.
- C. If a position is played by a substitute, the results of the match still count for their opponent. However, the absent player's record is not affected.
- D. Only AISA matches can be counted for qualifying purposes.

## VII. Qualifying For State Tournament

- A. The 4 teams with the best win/loss record (using percentages) against the teams in their area will go to the State tournament. Only area matches will be counted. Only top 5 Boys and Girls singles and top 2 Boys and Girls doubles are considered a team match. There will be 4 Boys teams and 4 Girls teams qualifying for State from each area. If a tie exists, use the following tie-breaker procedure.

## B. Tie Breaker Procedures:

When a tie exists between two teams, i.e. the same win-loss record.

- a. Winner of Head-to-head competition will be ranked ahead of loser.
- b. If still tied, the team losing the least number of individual matches, will be ranked higher.
- c. If still tied, the team losing the least number of sets, will be ranked higher.
- d. If still tied, the team losing the least number of games, will be ranked higher.
- e. If still tied, the flip of a coin will determine the winner.

In the event of a 3- or 4-way tie. The above method will be used to eliminate one team and then the process will be repeated with the remaining teams starting at Head-to-Head

## C. Individuals Qualifying for State Tournament:

1. If an individual player, who is not already on the top four teams, has a better win-loss record at their position than the top two players from their area who qualified for the State Tournament, they are eligible to participate in the State Tournament. Only head-to-head area matches are used to determine win-loss record. If a tie exists, both players may participate in State Tournament. It is the responsibility of the coach of any qualifying individuals to notify the AISA Athletic Director when this situation occurs.
2. Coaches will be responsible for sending to the State office records for players qualifying for State Tournament on or before the Wednesday before State Tournament.

## VIII. State Tournament

### A. Seeding

1. There will be a Coach's meeting on the Sunday before the State Tournament to determine seeding and receive court assignments and playing times.
2. The win-loss percentage records of the state entries will determine seed placement. If a tie occurs, current year head-to-head competition will be the determinant; if the concerned did not play during the current year, then advancement in last year's State Tournament at the same level of play will be the determinant; however if the tied players were scheduled to play and one player/doubles team was not able to play the match, the player/team that was available to play will be given the higher seed; if still tied, all coaches present at the meeting will decide. The coaches shall consider all available evidence.

If coaches cannot decide, then a flip of a coin will be used.

3. There will be four (4) seeds in eight-team bracket and four (4) seeds in a sixteen-team bracket. In an eight (8) team bracket seed #1 will be placed on line #1, seed #2 will be placed on line #7, seed #3 will be placed on line #5 and seed #4 will be placed on line #3. In a sixteen (16) team bracket seed #1 will be placed on line #1, #2 on line #15, #3 on line #9, and #4 on line #7. A Sixteen (16) team bracket must be used when more than eight (8) players qualify.
  - a. Byes will be awarded in order of seed rank with one bye going to #1 seed, second bye to #2, etc.
4. Draw procedures: Once the seeds and byes have been placed, the rest of the bracket may be drawn in the following manner: Names of remaining players are put on the unoccupied bracket line in the order they are drawn, starting at the top and moving downward in sequence.

#### B. State Tournament Play Format

1. All matches will be the two of three sets. However, a match tiebreak (first to 10 points by 2) will be played in lieu of a third set if the players or doubles teams split sets during the rounds leading up to the Finals. All Finals matches will be two of three sets.
2. Rest Time - A player or players may be given a maximum of 30 minutes rest between matches and 10 minutes between 2nd and 3rd sets.
3. A player should check in 30 minutes prior to play time and must be at courts within 15 minutes after call or default.
4. Tie breaker - The 12-point tie breaker procedure will be used.

#### C. Team Scoring

1. One (1) point will be awarded for each advancement in singles play.
2. One (1) point will be awarded for each advancement in doubles play.
3. One (1) point will be awarded for each bye in singles and doubles.

If tournament play has not begun or the affected bracket has not had a single match begin:

An alternate for singles may play but will not be eligible to be seeded. The bracket will be redrawn if the player who withdrew was seeded.

If one member of a doubles team is unable to participate, an alternate will be allowed to substitute on the doubles team. If the original team was seeded #1 or #2, then the bracket will be redrawn with the newly formed team being seeded #4 and all other seeded teams will be moved up one seed. In all other cases the bracket will not be re-drawn.

If play has begun in the affected bracket, the substitute will play as if he/she is the original qualified player. The bracket will not be redrawn.

Any alternate will not be required to have played the 5-match minimum.

Once a player withdraws from a bracket (Singles or Doubles) they are not allowed to reenter that bracket. However, they may continue to play in any brackets from which they did not withdraw.

Alternates are only allowed if the original qualified player has not played a single point in his/her draw...substitutions can still be made if an injury, etc. occurs during warm-ups.

## IV. Scheduling (All Classes, Area 1A and 2A)

- A. Member schools are required to play their assigned area schools the best 2/3 format with the first date being a single game (Monday) with the second date (Tuesday) a doubleheader. These games must be designated on both schedules. Note: Assignments are located in this section of the handbook (all 3 games are counted and must be played). Inclement weather games must be made up the following day (single game always first).

NOTE: Penalty - Team refusing to play their in-class area school will forfeit all post season play opportunities. Schools are required to play all in-class games to qualify for the play-offs.

- B. Schools may schedule as many regular season games as they desire; AISA recommends that schools not travel more than one (1) time per week on a day or night preceding a school day. NOTE! The AISA strongly recommends that regular season baseball or softball games scheduled for day time play may not start after 6:30 p.m. on a day preceding a school day.
- C. There is no limit on the number of tournaments AISA member schools may participate in, of which only one (1) of these may have play scheduled on a school day or night (Monday-Thursday) (recommended).
- D. AISA member schools may schedule no more than one (1) pre-season practice game. This game must be sanctioned by the AISA and will be limited to a maximum of seven (7) innings of play.

## V. Pitching Rule Limitations – New Baseball Pitching Rule:

**AISA Pitching Rule (Using Pitch Count) Adopted by AISA Athletic Committee  
 (December 7, 2016)**

- A. AISA Pitching Limitation Rule (**Applies to Varsity, Junior Varsity and Junior/Middle School games**) -- (Regular Season and Championship Playoffs) is

based on the number of (Legal and Illegal) pitches thrown in a day. The pitch count is based on pitches thrown to the batters during their time at bat. Warm up pitches allowed before each inning or those warm ups allowed by the umpire in case of injury or game delay do not count. All AISA Substitution and Pitching Rules must be followed. The number of pitches is based on the level of pitching. Specific rest periods are in place when a pitcher reaches a high threshold of pitches delivered in a day.

It is mandated that Game Changer must be used for all baseball schools.

#### LEVEL PITCHES ALLOWED PER DAY

11th & 12th Graders	120
9th & 10th Graders	100
7th & 8th Graders	85

The rest periods required during the regular and tournament season are listed below:

#### **11th & 12th Graders:**

\*If a pitcher throws 76 or more pitches in a day, three (3) calendar days of rest must be observed.

\*If a pitcher throws 51-75 pitches in a day, two (2) calendar days of rest must be observed.

\*If a pitcher throws 26-50 pitches in a day, one (1) calendar day of rest must be observed.

\*If a pitcher throws 1-25 pitches in a day no calendar day of rest is required before pitching again.

A calendar day means that if a pitcher throws 76 pitches on Tuesday that player may not pitch again until Saturday. If they throw 25 pitches on Tuesday the player may pitch again on the next day which is Wednesday. The starting time of the game does not matter in the calculation of when a pitcher is eligible to pitch again.

#### **9th & 10th Graders:**

\*If a pitcher throws 76 or more pitches in a day, three (3) calendar days of rest must be observed.

\*If a pitcher throws 51-75 pitches in a day, two (2) calendar days of rest must be observed.

\*If a pitcher throws 26-50 pitches in a day, one (1) calendar day of rest must be observed.

\*If a pitcher throws 1-25 pitches in a day no calendar day of rest is required before pitching again.

#### **7th & 8th Graders:**

\*if a pitcher throws 76-85 pitches in a day, three (3) calendar days of rest must be observed.

\*If a pitcher throws 51-75 pitches in a day, two (2) calendar days of rest must be observed.

\*If a pitcher throws 26-50 pitches in a day, one (1) calendar day of rest must be observed.

\*If a pitcher throws 1-25 pitches in a day no calendar day of rest is required before pitching again.

Any pitcher at any level who reaches the maximum pitch count limitation allowed per day during an inning will be afforded the opportunity to finish pitching to the current batter at bat.

- B. AISA Pitching Limitation Rule: is based on the number of pitches thrown in a day. The pitch count is based on legal and illegal pitches thrown. The use of an ineligible pitcher, one who has violated this rule, shall result in the forfeiture of the game in which the ineligible pitcher participated as a pitcher and the offending school will also be assessed a fine of \$250. The following is the number of allowable pitches and days' rest needed.

#### VI. Invitational Tournaments (All Classes)

All tournaments must be sanctioned in writing by the AISA State Office.

#### VII. State Playoff Seedings/Rankings

- A. Determining Area/Region Rankings: The first determining factor will be the won – lost percentage of each team in series play within the area. (The teams that won the most series within area play, will be ranked #1 – x#.) (Head to Head Series Winner)

1. For Example,

Team A wins series 2-1 vs Team B

Team B wins series 3-0 vs team C

Team A wins series 2-1 vs Team C

Team A(4-2) ranked #1 because they are 2-0 in series wins (+ they won series vs Team B)

Team B(4-2) ranked #2 because they are 1-1 in series wins

Team C(1-5) ranked #3 because they are 0-2 in series wins.

- B. The second determining factor to determine area rankings; will be the total number of wins within Area Play. Therefore ALL 3 games must be played. (Note: Teams refusing to play the 3rd game will be assigned a forfeit in that game and face possible post season elimination)

1. If a winner cannot be determined through series wins; then all 3 games within the area will be counted to determine the area winner. Overall win-loss percentage will determine the #1 team, then go to Head to head series. If 3 teams still tied, repeat to get #2 ranked team, then go to head to head series winner for remaining 2 teams. **If 2 teams are tied on overall record, then the series winner(head to head) will have the higher ranking.**

2. **For Example: 4 team area:**

Team A wins series vs C and D - 2-1 & 2-1 - (2-0 series) (4-2 overall)  
 Team B wins series vs C and D - 3-0 & 3-0 - (2-0 series) (6-0 overall)  
 Team A wins series vs Team B - 2—1 -  
 Team A (6-3) But won all 3 series (3-0 in series)  
 Team B (7-2) (2-1 in series play)  
 Team A ranked higher. (+ Head to head series win vs B)

3. **For Example – 3 teams tied in 2 out of 3 series wins**

Team A wins series vs Team B - 2-1  
 Team B wins series vs Team C – 3-0  
 Team C wins series vs Team A – 2-1  
 All 3 teams sweep Team D – 3-0  
 TEAMS A,B,C are all 2-1 in series area play.  
 TEAM A – 6-3 overall  
 TEAM B – 7-2 overall  
 TEAM C – 5-4 Overall  
 TEAM B ranked #1, then go to Series winner between Team A and Team C  
 TEAM C ranked #2 due to series win vs Team A.

4. If 3 teams are tied with the overall record as well as the area / region record the same, the tie can't be broken. Example: All 6-3 overall and 3-3 in the area/ region while still tied.

If still tied, the fewest combined runs given up versus the involved teams in each of the three games series would get the highest bid. The remaining two teams would then go to head-to-head for the remaining bids.

Example: Team A gives up a total of 14 runs  
 Team B gives up a total of 17 runs  
 Team C gives up a total of 12 runs  
 Team C gets the bid for allowing the fewest runs.

1. For Example,

 Team A wins series 2-1 vs Team C  
 Team A(4-2) ranked #1 because they are 2-0 in series wins (+ they won series vs Team B)  
 Team B(4-2) ranked #2 because they are 1-1 in series wins

If still tied, the fewest combined runs given up versus the involved teams in each of the three games series would get the highest bid. The remaining two teams would then go to head-to-head for the remaining bids.

## PEE WEE FOOTBALL

The following are required guidelines for pee wee football. School athletic directors and coaches need to meet prior to the season to establish rules and procedures.

1. An AISA student is eligible for pee wee football if his 13th birthday falls on or after August 1 of the concerned year and is enrolled in the 3<sup>rd</sup>, 4<sup>th</sup>, 5th or 6th grade. Note: student must have been promoted to next grade level to be eligible for participation (regardless for the reason repeating).
2. All players weighing 115 pounds or more must be identified by taping a star or some other identifying mark on their helmet. No marked player may advance the ball under any circumstance. All identified must be weighed before the game.

Weight Limits - All players weighing over 115 lbs. must be identified by taping a star or some other identifying mark on their helmet. No player weighing 115 lbs. or over may advance the ball under any circumstance. Players must be marked. All identified must be weighed before the game.

Weight limits should be monitored and adhered to. It is required that the home team provide a set of scales. All identified must be weighed before the game.

3. Coaches are not allowed on the field during interscholastic pee wee competition.
4. Participation: All players dressed out for the game must play.
5. Quarters will be 8 minutes in length and National Federation timing rules will govern play. Ten-minute halftime. May have a fifth quarter with 8 minute running clock.
6. Kicking Game: No kickoffs are allowed; the ball will be placed on the 40-yard line to start play. Punting - Pee wee teams may punt with no rush or may accept a 30-yard advance of the ball. Option must be made prior to the contest starting.
7. Pee wee practice regulations:
  - a. No practice is allowed until school starts.
  - b. First two practices must be in shorts/helmets only, with four (4) hours per week allowed prior to first game.

- c. No more than 90 minutes will involve full contact. Please refer to varsity contact policy for defining full-speed contact.
  - d. Teams may not practice more than 4 hours per week once the season begins. Season is defined as when games begin.
- 8. Pre-Game warm-ups are completed by the end of the preceding game on a field (varsity practice or baseball) provided by the home team.
  - 9. Starting times are as follows: 6:00 for Pee Wee and 7:00 for Junior High. Other starting times may be agreed upon by the 2 schools. For example, Pee Wee at 5:30 and Junior High at 7:00.

Note: Violations will be considered for fines/disciplinary actions by the Athletic Committee.

## **AISA ATHLETIC POLICIES AND PROCEDURES INTERPRETATION RELATING TO THE AISA EXECUTIVE DIRECTOR**

The AISA Executive Director has the authority to act on any case that needs immediate action subject to appeal. Action taken may include official rulings, investigation of violation or athletic policy, and/or sanctions for violations/infractions of athletic rules. To receive an official ruling on any case, the school administrator must request a ruling in writing to the AISA office. A verbal opinion or statement by the AISA office is not an official ruling. The AISA Executive Director may take action in a case without receiving a formal complaint.

### **ATHLETIC ELIGIBILITY Interpretation/Clarification**

During the school year only bona fide student-athletes may participate in that school's interscholastic events. The student must be enrolled at the school and attending classes at that school and meet all AISA eligibility requirements.

Interscholastic athletic events include, but are not limited to, regular season/playoff games, spring games, tournaments, and scrimmages/jamborees. Interscholastic events are activities/competitions held "between or among schools."

The AISA insurance programs only cover AISA students who are enrolled and attending classes at an AISA school during AISA sponsored and supervised activities. Students who are not enrolled and attending classes at the AISA member school are not covered for any reason and at anytime! (I.e. any tryouts/practices, volleyball tryouts, cheerleader tryouts, spring football practice, fall baseball tryouts/practice, etc.).

#### **NOTES:**

If a student-athlete registers/enrolls in an AISA school during the summer prior to the opening of the school year, the student is covered by the AISA insurance program.

No student attending classes at one AISA member or non-member school should be allowed to participate in another school's interscholastic events/activities or school practices/tryouts.

AISA does not determine eligibility criteria for cheerleading squads at member schools. The only eligibility requirement for cheerleaders is that an AISA All Star cheerleader must be a senior and a candidate for graduation. Schools determine their own criteria for try-outs and team selections. Students (from another AISA member school or non-member school) that try out for cheerleading in the spring and participate in practices in the spring should be covered under the school's insurance coverage. The AISA insurance only covers AISA students.

### Concussion Information Form

*(Required by AISA starting with the 2011-12 school year.)*

A concussion is a brain injury and all brain injuries are serious. They are caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. They can range from mild to severe and can disrupt the way the brain normally works. Even though most concussions are mild, **all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly.** In other words, even a "ding" or a bump on the head can be serious. You cannot see a concussion and most sports concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. If your child reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, seek medical attention right away.

#### Symptoms may include one or more of the following:

## AISA Concussion Information Form (Page 2)

### **What can happen if my child keeps on playing with a concussion or returns too soon?**

Athletes with the signs and symptoms of concussion should be removed from play immediately. Continuing to play with the signs and symptoms of a concussion leaves the athlete especially vulnerable to greater injury. There is an increased risk of significant damage from a concussion for a period of time after that concussion occurs, particularly if the athlete suffers another concussion before completely recovering from the first one. This can lead to prolonged recovery, or even to severe brain swelling (second impact syndrome) with devastating and even fatal consequences. It is well known that adolescent or teenage athletes will often fail to report symptoms of injuries. Concussions are no different. As a result, education of administrators, coaches, parents and students is the key to a student-athlete's safety.

**AISA Concussion Policy:** Any student athlete who exhibits signs, symptoms or behaviors consistent with a concussion shall be removed from the contest and shall not return that day. Following the day the concussion symptoms occur, the student athlete may return to practice or play only after a medical release has been issued by a medical doctor.

Any health care professional or AISA coach may identify concussive signs, symptoms or behaviors of a student athlete during any type of athletic activity. Once concussive signs are identified, only a medical doctor can clear an athlete to return to play. Any school in violation of the AISA policy application of the National Federation rule will be subject to sanctions.

### **If you think your child has suffered a concussion :**

Any athlete even suspected of suffering a concussion should be removed from the game or practice immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without clearance from a medical doctor. Close observation of the athlete should continue for several hours. You should also inform your child's coach if you think that your child may have a concussion. Remember it's better to miss one game than miss the whole season. And when in doubt, the athlete sits out.

This form is required by Alabama Law established in June, 2011, coinciding with the AISA Concussion Policy in effect since 2010.

**I have reviewed this information on concussions and am aware that a release by a medical doctor is required before a student may return to play under this policy.**

Re: **AISA Cardiac Arrest Training Requirement for All Sports**

Please provide the requested information regarding the following AISA athletic requirements and return to the AISA office prior to first practice. Failure to return by this date **will result in a \$250 fine**.

School \_\_\_\_\_

**Beginning with the 2024-2025 school year, once every two years, each coach of any athletic activity must complete a cardiac arrest training course. The training shall be made available through the National Federation of State High School Association (<https://nfhslearn.com/courses/sudden-cardiac-arrest.org> ).**

**A coach of any athletic activity may not be eligible to coach in any practice or competition until he or she has completed the training course.**

**Schools are required to provide to parents and athletes the sudden cardiac arrest symptoms and warning signs information sheet before any student-athlete may participate in any athletic activity and must have on file the signed information sheet by the student-athlete and parent.**

**This requirement is for all sports including elementary, junior high and varsity coaches and student athletes.**

## Why do heart conditions that put student athletes at risk go undetected?

While a student athlete may display no warning signs of a heart condition, studies do show that symptoms are typically present but go unrecognized, unreported, missed or misdiagnosed.

- Symptoms can be misinterpreted as typical in active student athletes
- Fainting is often mistakenly attributed to stress, heat, or lack of food or water
- Student athletes experiencing symptoms regularly don't recognize them as unusual – it's their normal
- Symptoms are not shared with an adult because student athletes are embarrassed they can't keep up
- Student athletes mistakenly think they're out of shape and just need to train harder
- Students (or their parents) don't want to jeopardize playing time
- Students ignore symptoms thinking they'll just go away
- Adults assume students are OK and just "check the box" on health forms without asking them
- Medical practitioners and parents alike often miss warning signs
- Families don't know or don't report heart health history or warning signs to their medical practitioner
- Well-child exams and sports physicals do not check for conditions that can put student athletes at risk
- Stethoscopes are not a comprehensive diagnostic test for heart conditions

## Protect Your Student's Heart

Educate yourself about sudden cardiac arrest, talk with your student about warning signs, and create a culture of prevention in your school sports program.

- Know the warning signs
- Document your family's heart health history as some conditions can be inherited
- If symptoms/risk factors present, ask your doctor for follow-up heart/genetic testing
- Don't just "check the box" on health history forms—ask your student how they feel
- Take a cardiac risk assessment with your student each season
- Encourage student to speak up if any of the symptoms are present
- Check in with your coach to see if they've noticed any warning signs
- Active students should be shaping up, not breaking down
- As a parent on the sidelines, know the cardiac chain of survival
- Be sure your school and sports organizations comply with state law to have administrators, coaches and officials trained to respond to a cardiac emergency
- Help fund an onsite AED

## What happens if my student has warning signs or risk factors?

- State law requires student athletes who faint or exhibit other cardio-related symptoms to be re-cleared to play by a licensed medical practitioner.
- Ask your health care provider for diagnostic or genetic testing to rule out a possible heart condition.

Electrocardiograms (ECG or EKG) record the electrical activity of the heart. ECGs have been shown to detect a majority of heart conditions more effectively than physical and health history alone. Echocardiograms (ECHO) capture a live picture of the heart.

- Your student should be seen by a health care provider who is experienced in evaluating cardiovascular (heart) conditions.
- Follow your providers instructions for recommended activity limitations until testing is complete.

## What if my student is diagnosed with a heart condition that puts them at risk?

There are many precautionary steps that can be taken to prevent the onset of SCA including activity modifications, medication, surgical treatments, or implanting a pacemaker and/or implantable cardioverter defibrillator (ICD). Your practitioner should discuss the treatment options with you and any recommended activity modifications while undergoing treatment. In many cases, the abnormality can be corrected and students can return to normal activity.

## What is Sudden Cardiac Arrest?

Sudden Cardiac Arrest (SCA) is a life-threatening emergency that occurs when the heart suddenly stops beating. It strikes people of all ages who may seem to be healthy, even children and teens. When SCA happens, the person collapses and doesn't respond or breathe normally. They may gasp or shake as if having a seizure, but their heart has stopped. SCA leads to death in minutes if the person does not get help right away. Survival depends on people nearby calling 911, starting CPR, and using an automated external defibrillator (AED) as soon as possible.

### What CAUSES SCA?

SCA occurs because of a malfunction in the heart's electrical system or structure. The malfunction is caused by an abnormality the person is born with, and may have inherited, or a condition that develops as young hearts grow. A virus in the heart or a hard blow to the chest can also cause a malfunction that can lead to SCA.

### How COMMON is SCA?

As a leading cause of death in the U.S., most people are surprised to learn that SCA is also the #1 killer of student athletes and the leading cause of death on school campuses. Studies show that 1 in 300 youth has an undetected heart condition that puts them at risk.

### Factors That Increase the Risk of SCA

- ✓ Family history of known heart abnormalities or sudden death before age 50
- ✓ Specific family history of Long QT Syndrome, Brugada Syndrome, Hypertrophic Cardiomyopathy, or Arrhythmogenic Right Ventricular Dysplasia (ARVD)
- ✓ Family members with known unexplained fainting, seizures, drowning or near drowning or car accidents
- ✓ Family members with known structural heart abnormality, repaired or unrepaired
- ✓ Use of drugs, such as cocaine, inhalants, "recreational" drugs, excessive energy drinks, diet pills or performance-enhancing supplements

## FAINTING

### IS THE #1 SYMPTOM OF A HEART CONDITION

### RECOGNIZE THE WARNING SIGNS & RISK FACTORS

Ask Your Coach and Consult Your Doctor if These Conditions are Present in Your Student

#### Potential Indicators That SCA May Occur

- Fainting or seizure, especially during or right after exercise
- Fainting repeatedly or with excitement or startle
- Excessive shortness of breath during exercise
- Racing or fluttering heart palpitations or irregular heartbeat
- Repeated dizziness or lightheadedness
- Chest pain or discomfort with exercise
- Excessive, unexpected fatigue during or after exercise

## Cardiac Chain of Survival

Their life depends on your quick action!  
CPR can triple the chance of survival.  
Start immediately and use the onsite AED.

**While missing a game may be inconvenient, it would be a tragedy to lose a student athlete because warning signs were unrecognized or because sports communities were not prepared to respond to a cardiac emergency.**
